Cairo, Egypt

PROFESSIONAL SUMMARY

Full-Stack Developer specializing in **ASP.NET Core**, **.NET Core**, **C#**, **SQL Server**, and **Angular**, with expertise in **System Design** to build scalable architectures. **ECPC Finalist (4 times)** with strong problem-solving and competitive programming skills. Experienced in mentoring university students through technical sessions within the ICPC community. Seeking to contribute to a dynamic software engineering team by developing efficient, high-performance full-stack solutions.

PROFESSIONAL EXPERIENCE

Scale AI, Competitive Programming AI Trainer

07/2023 – 10/2023 | Remote, USA

- Solved complex algorithmic and data-structure challenges to evaluate and improve generative AI models.
- Completed 67+ advanced coding tasks with 100% accuracy, ensuring high-quality training data for AI systems.
- Developed and executed automated and manual test cases to evaluate model responses and improve validation coverage.
- Identified edge cases, logical errors, and performance issues to enhance model reliability and reduce error rates.
- Collaborated with distributed engineering teams to enhance AI evaluation workflows and problem-solving benchmarks.

PROJECTS

Virtual E-Commerce, *ASP.NET Core | Entity Framework | SQL Server | RESTful APIs*

- Built a scalable Full-Stack platform featuring **JWT-based Security** and role-based authorization.
- Designed and implemented **over 15+ RESTful APIs** for products, users, orders, shopping carts, and feedback.
- Integrated **SQL Server** database for secure and efficient data management.

GitHub: <https://github.com/Shady-Mo/E-Commerce>

Tourism Booking System, *ASP.NET Core MVC | Identity | SQL Server | Stripe API | Output Cache*

- Developed a scalable Full-Stack booking platform using **ASP.NET Core MVC**, **EF Core**, and **SQL Server**.
- Optimized performance using **Output Caching** to reduce database overhead and integrated **Stripe API** for secure payments.
- Implemented secure authentication with **Google OAuth 2.0** and **ASP.NET Identity** (Role-Based).

SKILLS

Programming Languages: C#, C++, C, Python, JavaScript, SQL, Java

Backend Development: ASP.NET Core, .NET Core, ASP.NET MVC, Entity Framework, LINQ

Frontend Development: HTML, CSS, JavaScript, TypeScript, Angular, Bootstrap, Tailwind CSS, jQuery

Databases: SQL Server

Tools & Technologies: Git, GitHub, RESTful APIs, gRPC, Docker, Kubernetes, JWT Authentication, Stripe Payment

Computer Science Fundamentals: Data Structures, Algorithms, OOP, Problem Solving, SDLC, Agile Methodologies, Dependency Injection, Unit Testing, Clean Code, System Design Principles (Scalability, Caching, Microservices, Load Balancing)

EDUCATION

9-Month Professional Diploma in Web Development,

10/2025 – Present

Information Technology Institute (ITI)

Track: Professional Web Development and BI-Infused CRM

Bachelor of Computer Science, *Benha University*

10/2021 – 07/2025 | Benha, Egypt

GPA: 3.67 / 4.00 (Very Good)

Graduation Project: Virtual Try-On E-Commerce System for clothing visualization — Grade: Excellent

AWARDS

ECPC Finalist (4 times), *Egyptian Collegiate Programming Contest (ECPC)*

Competitive programming contest focused on algorithms, data structures, and advanced problem solving.

LANGUAGES

Arabic: Native

English: Professional Proficiency
